

## Meet the Experts - Stage Presentations | Foyer B - Level 2

### Day 1 | July 13

10:00 - 10:30

Refurbished Equipment

Secondlife Refurbished Equipment -  
the Process Explained from A to Z  
Canon Medical

11:00 - 11:30

MRI

Altivity in MRI: Artificial Intelligence  
Enriching Diagnostic Confidence and  
Productivity  
Canon Medical

13:30 - 13:50

Interventional Radiology

Innovative Interventional Dose Reduction  
Tools: Spot ROI & Dose Tracking System  
Canon Medical

14:00 - 14:30

Healthcare IT

Automation Platform: The Right Insights.  
Accelerated by AI  
Canon Medical

15:00 - 15:30

Eye Care

Eye Care a Window into  
Human Healthcare  
Canon Medical

### Day 2 | July 14

10:00 - 10:30

Mobile Imaging Solutions

How Can Mobile Imaging Solutions  
Support the Growing Demand for  
Imaging  
Canon Medical

11:45 - 12:15

Ultrasound *Livestream*

Landmark Based Approach to Small  
Nerves of the Head and Neck  
Dr. Alexander Loizides  
Medical University of Innsbruck, Department  
of Radiology, Innsbruck, Austria

13:30 - 13:50

Ultrasound

Stiffness and Fat Quantification Using  
the Aplio i-Series Ultrasound: Protocol  
of Acquisitions and Results  
Dr. Giovanna Ferraioli  
Policlinico San Matteo, University of Pavia, Italy

14:00 - 14:30

Interventional Radiology

High Definition Technology; A Game  
Changer in Interventional Imaging  
Canon Medical

15:00 - 15:30

Eye Care

Eye Care a Window into  
Human Healthcare  
Canon Medical

16:00 - 16:30

MRI

Advanced MRI Imaging and Workflow  
Focused Technology: Vantage Fortian's  
Unique Approach  
Canon Medical

### Day 3 | July 15

10:00 - 10:30

Refurbished Equipment

Secondlife Refurbished Equipment -  
the Process Explained from A to Z  
Canon Medical

11:00 - 11:30

Ultrasound

Kidney Cysts -- Bosniak Classification  
with High-Resolution Ultrasound  
Prof. Thomas Fischer  
Charité University Medicine Berlin, Germany

12:30 - 13:00

MRI

Advanced MRI Imaging and Workflow  
Focused Technology: Vantage Fortian's  
Unique Approach  
Canon Medical

13:30 - 13:50

Interventional Radiology

Angio-CT: Redefining the Future  
of Intervention  
Canon Medical

14:00 - 14:30

Healthcare IT

Future of Healthcare AI for Imaging  
and Beyond  
Canon Medical

15:00 - 15:30

Eye Care

How Eye Exams Help Chronic  
Disease Detection  
Prof. Patrick De Boever  
University of Antwerp, Belgium

### Day 4 | July 16

10:00 - 10:30

Mobile Imaging Solutions

First-hand Experience Working with a  
Canon Mobile CT Solution  
Mr. Koen Siefkes  
Radboud University Medical Center Nijmegen,  
the Netherlands

10:45 - 11:15

Ultrasound *Livestream*

Prostate Ultrasound Fusion Guided  
Biopsies - The Transperineal Approach  
Prof. Thomas Fischer  
Charité University Medicine Berlin, Germany

13:30 - 13:50

Interventional Radiology

Innovative Interventional Dose Reduction  
Tools: Spot ROI & Dose Tracking System  
Canon Medical

14:00 - 14:30

Healthcare IT

Automation Platform: The Right Insights.  
Accelerated by AI  
Canon Medical

14:30 - 15:00

MRI

Improved Patient MRI Experience and  
Productivity-Focused Technology  
Canon Medical

15:00 - 15:30

Eye Care

Looking into Multiple Sclerosis  
through the Eye  
Prof. Bart van Wijmeersch  
Noorderhart hospitals and Hasselt University,  
Pelt-Hasselt, Belgium
